Hall

The gallery level extends the usable floor space of approx. 2100 m² by a further 960 m². It is the heart of the venue, as it offers guests a completely new perspective and staging possibilities.

Studio

With a small gallery level and a size of 290 m², the studio can be used separately or in combination with the hall. It has an ideal ambience for the staging of small concerts, meetings or presentations; modern, extraordinary and versatile.
